Hi Reid,

Hi Cortney,

As requested, attached is the clean version and redline version of the preamble and rule language. In response to your question on LCF, I have added it in the glossary, spelled out and defined.

We look forward to your approval to download into ROCIS. Please let me know if you have any other questions or comments. Note that after today I will be on leave until January 2, 2014.

Regards  
Reid
